

## SAVE THE DATE

Come and see our **NEW TELIA FLEXO PRESS**  
at the Interpack Fair in Dusseldorf, May 4-10 / Hall 15 - C03

We will display the **new Telia** with the following features:

- 8 colors
- 140 cm web width
- Printing repeat up to 90 cm
- Speed up to 500 m/minute

**A new software** has been developed to make this machine extremely easy to operate and ideal for very short runs.

**The downtimes** in the job-changing phase have been **substantially reduced** to few minutes and the scrap, when changing the job, is now minimized to only **7 meters** of material.

Also the **mechanical structure** has been **furtherly improved** to achieve an high operating speed.

We have currently on the market many Telia model, 8 and 10 colors that are continuously operating **at over 450 m/minute**.

The extreme mechanical precision of the printing section guarantees a perfect quality on all half tone jobs.

**A new drying system** guarantees a high efficiency with extremely low energy consumption.

**We will be honored to receive your visit at Interpack, the most important fair in the packaging industry!**
