

## **TELIA 8 FSC HS NOW AVAILABLE FOR IMMEDIATE DELIVERY AT A SPECIAL PRICE**

After the incredible success at the DRUPA Show, we inform you that we have ready for tests in our permanent Open House Hall and ready for prompt delivery, **one of our brand new Telia FSC HS, 8 colour gearless press.**

The machine includes the following main features:

- Printing width 1300mm
- Mechanical speed: 500 m/min
- Print repeat range: 350 – 900 mm
- Fully automatic unwinder and rewriter for splicing at maximum speed
- FSC system for the preliminary automatic adjustment of the printing pressures
- Video Pre-setting
- Fully Automatic dual pump wash up system with integrated viscosity control and ink flow management system

The revolutionary **Telia FSC System is the fastest system in the market for job changeovers** and the only one capable of **granting less than 7 meters of waste material** when changing two eight colours jobs.

If you are planning an investment in a new 8 color gearless press, you cannot miss this opportunity!

The machine will be ready for trials starting from October and is subject to prior sale.

***We will be honored to receive your visit!***
